

Medico-Legal Society of Toronto

Society Membership

Join the Society

The Medico-Legal Society of Toronto was founded in 1950 by a group of doctors and lawyers to promote medical, legal and scientific knowledge, cooperation and understanding between the professions in the interest of justice and in the best interests of patients and clients.

In addition to other events, the Society holds four dinner meetings each year between September and June. Presentations on topics of interest include practical aspects of patient treatment and client representation and the policy issues of the day.

Other popular events include:

- Special programs on topics such as major legislative changes affecting the practice of medicine and or law.
- Our annual meeting is a formal dinner with a guest speaker of interest to both members & their spouses or guests.
- Presentation of the MLST Award to honour those members of the Medical, Legal or Scientific community.
- Biannual President's dinner highlighting the storied and respected history of the MLST.

We also publish revisions of the authoritative monograph "The Medico-Legal Report" at regular intervals.

Benefits of Membership

- Member's copy of "The Medico-Legal Report" at no additional cost.
- Leading-edge continuing legal and continuing medical education programs (credits provided, where available).
- Networking opportunities with both medical and legal experts.
- Advance notice of and discounted price at dinner meetings and other events.
- Access to a "members only" portal of the MLST website where you can access materials, participate in forums and contribute to the Society.

Who can join?

Membership in the Society is open to members of the medical and legal professions as well as others involved in medicine, law or science.

"Since its earliest days the main purpose of the MLST continues to be: To enrich the membership with an ongoing educational experience offered by both professions to each other. The members understand the high moral standard expected of them and hold each other in mutual respect."

W.O. Geisler, M.D. FRCP (C)

"As managing partner of the personal injury law department, the contacts and relationships that I have developed over the years as a member of the MLST have been invaluable. The programs are enriching and encourage synergy between two great professions."

Marc Spivak, B.Comm, B.C.L., LL.B.

"MLST: Where I always meet the key people and always learn the latest relevant information."

John Carlisle, M.D., LL.B., Coroner
for the Province of Ontario
